Justin wears blue socks. He had 10 blue socks. He lost two. How many socks are left?

Connor likes to read. He likes to read about sports heroes. He bought a book about Spud Webb. Spud Webb was only five feet and five inches tall. He was a very short for an NBA player! The book cost \$2.50. Connor gave the clerk \$5. How much change did he get back?

Hannah went to the store. She bought 2 dozen eggs for \$1.13 per dozen, 2 loaves of bread for \$1.29 each, 5 candy canes for \$0.42 each, 1 gallon of milk for \$2.32, and 2 bags of chocolate candy for \$1.48 each. She will give the candy to the children at the park. How much did she spend on candy?

Abu rolled up his paper hat very tightly and put it in a bottle. He put a cork in the bottle and threw it into the ocean. Three days later the bottle washed up on a tiny island eighteen miles away. If the bottle traveled the same distance each day, how many miles did the hat in the bottle travel each day?

100 less  
than 683

Combine the words to make a compound word.
