

Name: _____

Alex liked to run. He liked to run in races. He never won. He was always the underdog. One day he said, "I don't want to lose every race. I don't want to be the underdog." He started to run after school. On Monday he ran two miles. On Tuesday he ran one mile. On Wednesday he ran five miles. On Thursday he ran three miles. On Friday he ran in a race. He was the underdog. He ran fast. He tried very hard and he won the race! How many miles did Alex run to practice for the race?

Emily stepped in the mud. She made a mud footprint on the kitchen floor. Her mother said, "Who made the mud footprint?" Emily said, "Little Sister did it." Mother said, "Little Sister's feet aren't that long." She measured Emily's foot and Little Sister's foot. Emily's foot was nine inches long. Little Sister's foot was five inches long. How much longer was Emily's foot than Little Sister's foot?

How much is this?

How much is this?

$$\begin{array}{r} 28 \\ + 10 \\ \hline \end{array}$$

There were 29 boats in the river. Then 11 more boats joined them. How many boats were in the river then?

April loved teddy bears. She had thirteen teddy bears. Some of them were red, some were brown, some were blue, and some were white. They were all soft and fluffy. On her birthday April was given four more teddy bears. How many does she have in all?

Mrs. Thompson drew some bubbles on cards. She put them in order. There were 4 bubbles on the first card. There were 8 bubbles on the second card. There were 12 bubbles on the third card. How many bubbles were on the sixth card?

Name: _____

Miss Miller made 54 ice cream cones. Of that number, 31 were chocolate. How many cones were not chocolate?

Gavin had forty-eight rocks in his collection. He gave Adam thirteen rocks. He gave Peter six rocks. How many rocks does Gavin have left?

Emma picked 46 cherries Monday. She picked 38 cherries Tuesday. She needs 140 cherries for the cherry pie. How many more cherries does she need to pick?

Sara has 6 squishies. She collects them! She has 2 red ones. The rest are yellow. How many squishies are yellow?

$$\begin{array}{r} 3 \\ - 2 \\ \hline \end{array}$$

$$\begin{array}{r} 11 \\ + 10 \\ \hline \end{array}$$

Jack made his own kite. He spent \$4.80 on his kite. Peter bought his kite at the store. It cost \$9.99. How much more did Peter's kite cost than Jack's kite?

Robert needs 78¢ to buy a book about the stars. Draw coins to show two different ways he can have 78¢.

Adam wants to buy a sea monkey. He has 6 dimes and 7 pennies. How much money does he have?

Write the numbers.
