There are 15 pages about D-Day in Sara's book. There are some pages about D-Day in David's book, too. There are 28 pages about D-Day in all in the two books. Write an equation and solve it to find out how many pages about D-Day are in David's book.

The cafeteria workers are making sandwiches for all the students at Martin Primary School. There are one hundred forty-three students in kindergarten, fifty-nine students in first grade, one hundred twenty students in second grade, and one hundred forty-four students in third grade. Nine students are absent from school today. There are a total of twenty-one teachers at the school. If the workers make one sandwich for each student at school today, how many sandwiches will they make?

Can you name the mystery three-digit number?

One of the digits is 5.

The second digit is 5 more than the first digit.

If you multiply the first and the last digits, the product is 20.

If you add the first and the second digits, the sum is 13.
