Mrs. Lee wrote the numbers 6 and 24 on the board. She always had a weird way to teach math. "Now, class," said Mrs. Lee. "My printer is broken. Please write your own math problem using these numbers."

"Fine," said Wendy to her brother Jack. "I'll let you have my Legos for a dollar, but you will have to walk the dog for me this week."

"Deal!" said Jack. He went to his room to get a dollar bill, but all he had was coins. "How did that happen?" he thought.

He counted 4 dimes, 56 pennies, and 6 nickels. Does he have enough money?

If he does, what should he give Wendy?

If he does not, how much money does he need?
