Name: \_\_\_\_\_

Connor went to the store. He bought a treat for his dog. The treat cost 31 cents. He gave the clerk one dollar. How much change did he get?

Miss Martinez bought 32 safety pins. The pins were divided equally into 4 packages. How many safety pins were in each package?

Gavin drew a rectangle that is 6 inches by 6 inches. He wants to arrange some crackers on top of his rectangle. The crackers are each 2 inches by 3 inches. How many crackers can he place onto his rectangle without overlapping them?

Wendy collects squishies. Before she started getting serious about collecting, she only had 5 of them. But now she has 39 squishies. She ordered 9 really big squishies online. They should be delivered next week on her birthday. And guess what? Next week on her birthday, she invited 4 friends over for a slumber party. In the invitation she said, "No gifts. Just give me 2 squishies."

On the day after her birthday, how many squishies will Wendy have?

$5 + \boxed{\phantom{00}} = 9$

$5 + \boxed{\phantom{00}} = 23$

$36 + \boxed{\phantom{00}} = 39$

$4 + \boxed{\phantom{00}} = 30$

Date \_\_\_\_\_

Start on the **B** circle. Do not pick up your pencil. Draw a line going left, right, up, or down. **Every line must end on a circle. No stopping on an empty box.** Try to collect all the circles and end your last line on the **E** circle. You can go through a circle more than once.

Part of the line has already been drawn for you.

Didn't get them all? That's ok. This was hard. I missed only \_\_\_\_\_ circles.

It's NO PREP at edHelper.
