

Name: _____

It is impossible to keep from laughing at Fred. He makes funny faces, tells jokes, and just clowns around. He said he could make anyone laugh in less than one minute. Jacob could only keep from laughing for 35 seconds. I tried and almost made it. I laughed at Fred after 51 seconds. How many more seconds did I last than Jacob?

Megan cleaned out the refrigerator for her grandmother. She found four old apples, four wrinkled oranges, two black bananas, thirteen spotty lemons, five squishy peaches, a bowl of oatmeal, five partially eaten cookies, nine yellowish celery stalks, and a pear with a bite out of it. How many pieces of fruit did Megan find in her grandmother's refrigerator?

How many total legs are on 14 elephants?

What is the sum of 8 and 58?

double 33 =

Mrs. Smith weighed the two containers of potato salad. One weighed 3.59 pounds. The other weighed 1.26 pounds. How much did the two containers of potato salad weigh in all?

It was such pandemonium! There were books stacked everywhere in the new bookstore. Kevin finally found the book he wanted at the bottom of the stack. He gave the clerk a 20-dollar bill. If the price of the book was \$14.29, how much change did he get?

Rosa worked on a quilt on Quiet Day. The quilt is 5 feet long and 4 feet wide. What is the area of the quilt?

Name: _____

The last machine on the needle manufacturer's line puts the needles in cardboard folders. Each folder holds 6 needles. How many folders would be needed for 534 needles?

To prepare for National Kite Month, the toy store ordered 19 boxes of kites. There were 15 kites in each box. How many kites were ordered in all?

Mr. Brown estimated that he serves about 45 black cow root beer floats each day. About how many floats did he serve in April?

A book has 6 pages. Each page has 10 dimes. How many dimes in the book?

$$36 \div \underline{\quad} = 9$$

Is 41 a composite or a prime number?

The first Iditarod Race was held in 1973. Thirty-five mushers started the race. Only 22 finished. Write the ratio of mushers that finished to mushers that started.

Each month the average person in the United States eats about 30 ounces of candy. About how many ounces of candy does the average American eat in two years?

Justin made a small quilt for his new baby brother. His mother gave him 90 blue fabric squares and 90 yellow fabric squares. Justin's quilt was 8 squares wide and 13 squares long. How many fabric squares did he have left when he finished the quilt?

7, e, 8, m, 7, e, 8, m, 7, e, 8, m, 7, ____, ____

Complete each pattern. Write what the rule is.

26, 28, 30, 34, 38, 44, 50, 58, 66, _____, _____, 98, 110, 124

43, 45, 47, 51, 55, 61, _____, _____, 83, _____, 103, 115, 127, 141

Name: _____

Cross off the number that does NOT belong.

40, 45, 50, 55, 60, 65, 70, 73, 75, 80

Why does _____ not belong in the pattern?

Cross off the number that does NOT belong. Hint: Look at movement of digits!

2465, 4652, 6524, 5246, 2465, 4652, 6524, 5246,

4652, 2465, 4652, 6524, 5246, 2465, 4652

Why does _____ not belong in the pattern?

Name: _____

Russia, Norway, and Finland were awarded gold (6, 8, and 5), silver (6, 3, and 7), and bronze (3, 8, and 7) medals. Figure out how many of each type of medals were won by each of the three countries.

For example, country x may have won 6 gold, 7 silver, and 8 bronze medals. However, if country x won 6 gold medals, that means country z did not win 6 gold medals. Instead, country z may have won 8 gold medals.

Use the clues to figure out the number of medals awarded to each country.

1. One country won an odd number of bronze medals and six silver medals.
2. One country won eight gold medals. The same country also won three silver medals.
3. Norway won either six or seven silver medals.
4. Finland won fewer gold medals than bronze medals. Finland also won the same number of gold medals as silver medals.
5. Russia won the fewest silver medals.
6. Russia won a total of fourteen medals.
7. Norway won the most bronze medals.
8. Norway won either five or six gold medals.
9. Finland won three bronze medals in speed skating as well as two bronze medals in alpine skiing.

Russia won _____ gold medal(s), _____ silver medal(s), and _____ bronze medal(s).

Norway won _____ gold medal(s), _____ silver medal(s), and _____ bronze medal(s).

Finland won _____ gold medal(s), _____ silver medal(s), and _____ bronze medal(s).

$$35 \div 5 =$$
