Jack bought some happy face stickers. He put them on pieces of bright green paper and wrote, "I am happy that you are part of my world." Every time he thought of it, he secretly left one of the notes. Most of the time he left the notes for strangers. It made him feel like he had a happy secret. His computer printed 20 of the notes on one sheet of paper. How many sheets of paper would he need to print 140 notes?

Jack asked his brother to build a small table for his school science project. His brother said he would build it and it would only take thirty-nine minutes per day for seven days to do the work. His brother procrastinated and didn't do any work on the table until the day before Jack needed it. If his brother starts working on the table at 9:46 a.m., what time will he finish it?
