Emily just loved ice cream. She liked all kinds of ice cream. Today she wanted to buy a BIG banana split. It had five scoops of ice cream. It had three kinds of syrup. It had a whole banana and three cherries on top of the whipped cream. It costs \$5.99. Emily gave the clerk \$10. How much change did she get?

Sammy the Squirrel knew he had to collect at least 500 acorns to have enough food for the winter. Every day his mother reminded him to collect acorns, but every day Sammy procrastinated. Even when the weather began to get colder, Sammy procrastinated. Finally, Sammy's mother told him he only had twelve hours left to collect the acorns. If it takes six minutes to find an acorn and take it to his tree, how many acorns will Sammy have at the end of the twelve hours?

Emma drew a square with an area of 6 square centimeters. Hunter drew a square with an area of 15 square centimeters. How much bigger is the perimeter of the square that Hunter drew than the perimeter of the square that Emma drew?

There are 3 groups of 5 rocks. How many rocks?

The number 43 is more than the number 7 by how much?

Robert earns \$16 an hour. He worked 4 hours. How much did he make?
