Mary helped her aunt pick tomatoes from her garden. It was hard work and it made her back hurt, but it was worth it. Those juicy fresh tomato sandwiches would be delicious! They picked tomatoes from 7:44 a.m. until 12:05 p.m. For how long did Mary and her aunt pick tomatoes?

Hunter was getting a new carpet for his room. He was happy because his parents let him have just the color he wanted — bright red! His room was made up of two rectangles. The first one was 5.3 feet long and 8.7 feet wide. The other rectangle was 10 feet long and 12.3 feet wide. How many square yards of carpet will be needed? (Hint: 9 square feet = 1 square yard)

Jessica likes to run. She started using a running app on her phone in August. During the month, she ran an average of 2.5 miles per day. How many miles did she run for the entire month?

Holly likes to multiply a number by itself. Why? Nobody knows!

"If I take my favorite number and multiply it by itself, the product will be only 11 away from 75. Can you guess my favorite number?" asks Holly.

Pick up all of the robots from the game board. Start on the **B** circle. Do not pick up your pencil. Draw a line going left, right, up, or down. **Every line must end on a robot or the E circle. No stopping on an empty box.** Try to collect all the robots and end your last line on the **E** circle. You can go through a robot more than once.

Didn't get them all? That's ok. This was hard. I missed only \_\_\_\_\_ robot/robots.

This puzzle has a large number in the middle, which is the sum of the four numbers that surround it.

Example:

$$9 + 2000 + 700 + 100 = 2809$$

Example:

$$20 + 8000 + 100 + 2000 = 10120$$

Sample:

Fill in the missing numbers. How? The sum of the four surrounding numbers is in the center of each square. Exactly one of the four numbers has to be one of these numbers: 3 ones, 5 tens, 2 tens, 6 ones, or 9 ones.

The other three numbers have to all be DIFFERENT and must be from these: 1 hundred, 7 hundreds, 8 thousands, 4 hundreds, or 2 thousands.

Name: \_\_\_\_\_

Fill in the missing numbers. How? The sum of the four surrounding numbers is in the center of each square. Exactly one of the four numbers has to be one of these numbers: 7 tenths, 1 hundredth, or 3 tenths.

The other three numbers have to all be DIFFERENT and must be from these: 8 tens, 4 tens, 9 tens, or 1 ten.

	1 [ten]			1 [hundredth]		
9 [tens]	180.7	7 [tenths]			9 [tens]	210.7 7 [tenths]

# Pictures Kissing

Each of the pictures needs to kiss. The two pictures that kiss must be the same pictures.

Draw a line that connects one picture to one other picture to kiss. Draw your lines over the trace lines. No lines may cross. Once you draw a line to a picture, that picture cannot be used again.

One complete line has already been drawn for you.
