Can you draw lines to cover every number or shape in the picture?

You can only move left, right, up, or down. And definitely no starting or stopping in a blank spot!

The first one is already done for you. Good luck.

Draw exactly 8 lines.

Start on 1.

Do not pick up your pencil.

Draw exactly 8 lines.

Start on 1.

Do not pick up your pencil.

Draw exactly 8 lines.

Start on the square.

Do not pick up your pencil.

Draw exactly 7 lines.

Start on the square.

Do not pick up your pencil.

Draw exactly 8 lines.

Start on the square.

Do not pick up your pencil.

There are five objects (a white object, a navy object, a violet object, a red object, and a pink object). Each object has a different mass (41 g, 69 g, 50 g, 37 g, and 8 g) and a different volume (100 cubic cm, 14 cubic cm, 49 cubic cm, 7 cubic cm, and 51 cubic cm).

Density = Mass / Volume

Figure out the mass, volume, and density of each object.

1. The red object has a greater mass than the pink object.
2. The volume of the white object is not 51 cubic cm.
3. The density of water is 1.0 grams per cubic cm. If the white object was placed in water, it would float.
4. The density of aluminum is 2.7 grams per cubic cm. The pink object is more dense than aluminum.
5. The white object has a greater mass than the violet object.
6. The density of water is 1.0 grams per cubic cm. If the violet object was placed in water, it would sink.
7. The violet object has a mass of 8 g and a volume of 7 cubic cm.
8. One object has a volume of 51 cubic cm and a density of 1.353 grams per cubic cm.
9. One object has a volume of 100 cubic cm and a density of 0.5 grams per cubic cm.
10. The volume of the pink object is not 51 cubic cm and it is also not 100 cubic cm.
11. The navy object has a volume of 49 cubic cm and a mass of 37 g.

white object has a mass of \_\_\_\_\_, a volume of \_\_\_\_\_, and a density of \_\_\_\_\_.

navy object has a mass of \_\_\_\_\_, a volume of \_\_\_\_\_, and a density of \_\_\_\_\_.

violet object has a mass of \_\_\_\_\_, a volume of \_\_\_\_\_, and a density of \_\_\_\_\_.

red object has a mass of \_\_\_\_\_, a volume of \_\_\_\_\_, and a density of \_\_\_\_\_.

pink object has a mass of \_\_\_\_\_, a volume of \_\_\_\_\_, and a density of \_\_\_\_\_.

# Greater and Less Than Number Kissing

Start at a green number and draw a line to any red number that is less than the green number.

Draw a line that connects one number to one other number to kiss. Draw your lines over the trace lines. No lines may cross. Once you draw a line to a number, that number cannot be used again.

One complete line has already been drawn for you.
